

CASE STUDY

MOBILE RACKING SYSTEM

The customer

Hemofarm is a leader in the Serbian pharmaceutical market with a 17.3% share in financial terms. And with a 79.1% share in the export of Serbian pharmaceutical products, the Vršac-based company is at the same time the leading Serbian exporter of medicinal products. Hemofarm produces over 4 billion tablets and capsules a year. It runs its business on three continents and it has a team of over 2.500 employees. In addition to being present in 38 markets worldwide, Hemofarm is one of the largest pharmaceutical manufacturers in the region.
