

KARDEX REMSTAR HORIZONTAL CAROUSEL

HIGHER PRODUCTIVITY IN THE WAREHOUSE OR YOUR INDUSTRIAL SPACE

THE HORIZONTAL CAROUSEL IS THE BEST SOLUTION FOR FAST AND PRECISE PICKING OPERATIONS

EFFECTIVE AND FAST ACCESS TO A LARGE NUMBER OF ITEMS - SIMULTANEOUSLY

- Take advantage of the existing length of the warehouse or industrial space;
- Access openings for quick and precise picking operations of stored items;
- Different Horizontal Carousels combined in station units may work simultaneously;
- Permanent access to the stored goods. Waiting time is practically reduced to 0;
- Much more picking operations per hour;
- Integration of Kardex Remstar Power Pick Global Software;
- Improved optical elements and easy to use control display systems.

TECHNICAL SPECIFICATIONS AND ADVANTAGES

GOODS TO PERSON PRINCIPAL TO IMPROVE PICKING VELOCITY AND MAXIMUM USE OF THE LENGTH OF THE INDUSTRIAL SPACE

POSSIBLE CONFIGURATIONS

L OR I SHAPED DOUBLE STATION WITH ACCESS OPENINGS AND SMALL, EASY TO USE PICKING AREA

I shaped station, suitable for up to 3 m. height storage areas.

POSSIBLE CONFIGURATIONS

TRIPLE OR FOUR UNITS STATIONS

Triple L shaped stations

Four units L shaped station

Station suitable for larger number of stored items

More accesses,
allowing more than one operators
simultaneous work, within 5 to 10 sq. m.

POSSIBLE CONFIGURATIONS

MULTILEVEL HORIZONTAL CAROUSEL STATIONS

Optimal use of horizontal and vertical space, up to 4,5 m.

Organization in 2 or 3 picking zones, to optimize the time for each picking operation

Elevators for the operators and the stored items
