ALWAYS FAMI

Fami was founded as a specialist industrial furnishing manufacturer. Over the years, considerable resources and energies have been invested in growing professional skills, establishing an impressive network of contacts and transforming research and materials into highly functional, innovative and top quality products.

ALWAYS THERE. GLOBALLY. CONCRETELY.

Fami is a solid business organisation with six subsidiaries in Germany, Poland, Switzerland, Austria, China, Argentina and an authorised distributor network all over Europe, South East Asia, Middle East and Latin America. Every year eight million kilograms of iron and steel and two million kilograms of plastic are transformed into products. All of the manufacturing processes take place in house: from the processing of raw materials to the finished product.

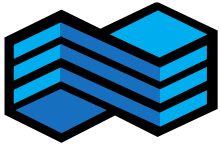

FAMI RESPONSE TO FITTING OUT AND CUSTOMISATION OF COMMERCIAL VEHICLES

It's a young division that designs, realises, produces and fits out interior spaces of commercial vehicles, through the use of innovative custom-made accessories for all types of vehicles.

Store Van operates in Italy and Europe thanks to its agents.

MIAL INDUSTRIAL DESIGN

SPECIALISTS IN RESELLING

Fami's commercial division dedicated to the reseller channel. More than 8.000 articles, between Fami and commercial items, allow Mial to offer the best solution for the specific needs of every situation.

An outstanding service is delivered thanks to Mial's high-quality products, customised requests, rapid deliveries and shipments.

The brand guarantees Fami's multi-year experience and detailed attention to the always-changing logistics sector.

The extrapolation and re-elaboration of Fami's most logistics oriented products and new designs are the basis of FAMILOG. The new products are innovative and ready to put themselves on the line in the complex logistics world.

A complete range of products are available both in the FAMI PLUS catalogue and in the online shop.

The catalogue includes Fami's most sold articles and a wide selection of products designed for the needs of the industrial sector.
